DEAR READER,

I am so excited to introduce Maddie and Mabel to you. I wrote this book while thinking about me and my sister and all of our adventures together. So even though Maddie and Mabel is fiction, a lot of it came from my life. My sister and I loved playing together and having fun, just like Maddie and Mabel. I am a teacher who loves to work with kids who are learning to read themselves. I wanted to write a story kids would enjoy and characters they would fall in love with like I have.

This packet includes some fun things for you to do and try with your siblings or your friends!

I hope you enjoy it!

From,

KARI
